DM-60

DM-20, DM-40, DM-60 – Three New Manual Ranging Multimeters.

The DM-20, DM-40 and DM-60 give you three more reasons to add a Greenlee tester to your tool portfolio. Manual ranging multimeters are used in many everyday electrical applications where the electrician does not require extended features or high accuracy. Measurement capabilities for the DM-20, DM-40 and DM-60 include: AC and DC voltage, DC current, temperature (K-type thermocouples only), and resistance. Other capabilities include checking diodes, verifying continuity, and testing 1.5V and 9V batteries.

All three multimeters have been third party approved by UL. The safety measurement rating for the DM-40 and DM-60 are Category III 300V and Category II 600V. The DM-20 has a safety measurement rating of Category II 300V. When you purchase a DM-20, DM-40 or DM-60, you will receive everything you need to start using your meter including a rugged protective boot. As with all Greenlee test instruments, the DM-20, DM-40 and DM-60 carry the Lifetime Limited warranty.
